# BROSU

For single use, sterile, material: PC

Order information

Connector with lock for safe bronchoscopy and suctioning without leaks. Once the cap is opened, the internal lock guarantees system tightness.

- Anaesthetic gases cannot escape
- No loss of pressure (PEEP)
- Minimum risk of contamination during suctioning (alternative to sterile suction systems)
- Ideal seal during and after bronchoscopy

Size (port)	Colour	Fits for Suction Catheter	Fits for Bronchoscope	REF	Box

# Classic Infusor

For pressure infusion, irrigation, transfusion and invasive blood pressure monitoring

### 500 ml and 1000 ml version:

With double hook, for fixation of different fluid bag configurations

- Rapid administration of an infusion solution for compensation of fluid/ volume deficiency
- Pressure monitoring and irrigation of the tubing system during invasive, arterial blood pressure monitoring
- Transfusion

### 3000/5000 ml version:

With zipper, allows insertion of different fluid bag configurations

- Administration of large fluid volumes for irrigation of the operation field

The polyamide material of the Classic Infusor enables easy cleaning & disinfection. Transparent netting for a clear view on the fluid bag and the fluid level. With UDI-Code for product traceability.

## Features

### Hand inflator with three-way stopcock

- Ergonomic hand inflator for inflation
- Three-way stopcock for quick deflation during change of the fluid bag

### Manometer

- Pressure range from 0 - 300 mmHg in increments of 10 mmHg
- Robust and durable for accurate pressure monitoring

### Colour coded pressure indicator

- 360° pressure indicator facilitates pressure monitoring
- Pressure relief valve to prevent over inflation

## Order information

# / Clear Infusor

For pressure infusion, irrigation, transfusion and invasive blood pressure monitoring

### 500 ml and 1000 ml version:

- Rapid administration of an infusion solution for compensation of fluid/ volume deficiency
- Pressure monitoring and irrigation of the tubing system during invasive, arterial blood pressure monitoring
- Transfusion

### 3000 ml version:

- Administration of large fluid volumes for irrigation of the operation field

Wrap-around design allows fixation of most fluid bag configurations and even pressure distribution. The smooth surface of the PU material enables easy cleaning & disinfection. The transparent material offers a clear 360° view on the fluid bag and fluid level. With UDI-Code for product traceability.

## Features

### Hand inflator with three-way stopcock

- Ergonomic hand inflator for inflation
- Three-way stopcock for quick deflation during change of the fluid bag

# Pressure Infusor 100 & 200

Automatic Pressure Infusors for compressed air

For the use with pressure infusion cuffs for automatic irrigation purposes during minimal invasive surgery.

Features

**Precision Pressure Regulator**

- Very precise pressure regulation
- Maintains selected pressure and guarantees automatic compensation
- Limits pressure to max. 300 mmHg

**Protection Cover**

- Protects the device from liquid and damage

**Coil Extension Hose**

- Firmly connected to the device
- With male Luer Lock connector

**Universal Clamp**

- Possibility of mounting on a horizontal standard rail or vertical pole

Version	With pressure hose (4.0 m) and pressure connection	With pressure connection	Box
	RECTUS	NIST	
With universal clamp	REF 52-13-100	REF 52-13-100NIST	1
With stand and basket	REF 52-15-100	REF 52-15-100NIST	1

**Pressure Infusor 200 / For compressed air, with switch for the connection of two Pressure Infusion Cuffs**

Version	With pressure hose (4.0 m) and pressure connection	With pressure connection	Box
	RECTUS	NIST	
With universal clamp	REF 52-13-200	REF 52-13-200NIST	1
With stand and basket	REF 52-15-200	REF 52-15-200NIST	1

## Support Arm with Flexible Rod

Adjustable in height, length of Support Arm: 38 cm

Order information

	Tube holder plate	Tube holder plate, swivelling	Tube holder plate, with safety lock	Twin tube holder	Box
Rail clamp	REF 73-512-04	REF 73-512-14	REF 73-512-44	REF 73-512-23	1
Universal clamp	REF 73-532-04	REF 73-532-14	REF 73-532-44	REF 73-532-23	1

## Support Arm with 3-Joint-System

3 joints can be fixed with only one fixation knob

Order information

With tube holder plate and universal clamp / Available in two lengths

Length	Tube holder plate	Tube holder plate with safety lock	Box
30 cm	REF 70-131-04	REF 70-131-44	1
50 cm	REF 70-231-04	REF 70-231-44	1

## Tube-Tray

Tube holders for adult and paediatric Respiration Tubing

- Various openings for a perfect fit of Respiration Tubing of different size and material
- Also accepts gas sampling tubes
- Does not contain ferromagnetic materials (except Tube-Tray with rail clamp)
- Versatile placement either behind or lateral to the patients' head
- Relieves stress on patients' face

Order information

Tube-Tray straight /
